Trion® Shelf Works™ Shelf Management

EXPANDABLE WIRE TRAY™ SYSTEM

DIVIDER SYSTEM
AUTO-FEED SYSTEM
GRAVITY-FEED SYSTEM
SHELF OR WALL MOUNT

Easily adjusts from 5" to 12" wide. Mini System 3" to 6" wide.

Expandable Wire Tray™ System

- Powder-coated galvanized wire with Celcon plastic adaptor blocks, offering economy and long life even in harsh environments. A low-cost replacement for expensive plastic tray systems.
- Accommodates almost any style/size package. Easily adjusts from

- 5" to 12" wide, mini system from 3" to 6".
- For standard shelving, wire shelving, table top, freezers and coolers
- Pegboard- slatwall- & crossbar versions avail.
- Order stand-alone single-facing units; pre-assembled multiple interlocking units for low cost one-piece installation; or as components.

- Mounts using wire ties, double-sided tape, anti-skid pads or rail system.
- Label can be adhered to pusher for branding or restocking information.
- An economical, adjustable stock system, allowing easy custom configuration when necessary. Open wire design promotes air circulation, sheds dust and dirt. Available in colors.

Rail Mount & Freestanding Units: Wire or Clear Plastic Front Stop

Single Units
Single units for standard shelf, wire shelf or table top, 4" wire front stop and dividers standard. Freestanding, wire tie, tape or anti-skid pad mounts.

Modular Units
Modular units for standard shelf, wire shelf or table top. Front rail mount only. Modular units are advantageous in displays where the number of facings or size of product changes often.

Multiple Interlocked Units
Functions as single unit, though facing widths are adjustable, 4" wire front stop & divider, clear plastic front available. Front rail, freestanding, wire tie, tape or anti-skid mounts.

Security Units
Dividers wrap over top of products, only the front-most item can be removed, one-at-a-time. Security Units must be designed to accommodate your specific product.

Tiered Units
Both Standard and Security Units can be designed to form a tiered or stacked one-piece display. Tiered units must be designed to accommodate your specific product.

Options and Features: Rails, Tie-downs, Product Stops, Springs, Pushers

Adhesive, Pushbutton, Label Holder & Product Stop Rails
Many rail designs available including low profile adhesive, pushbutton mount, clear product stop, & label holder rails. Contact your Trion Representative for details.

Freestanding, Wire Tie, Tape, or Anti-skid Pad Mount
Non-front-rail units may be totally free standing, wire tied to standard or wire shelves, tape mounted to solid shelves, or equipped with anti-skid pads to resist movement.

Clear Plastic or Open Wire Front Product Stops
Wire stops provide strength, easy visibility, and air circulation in cooler applications. Clear plastic stops provide complete visibility of product and labels if shelf image is critical.

Multiple Spring Tensions and Ganging Possibilities
Five spring tensions are available, along with the unique ability to mount multiple springs per pusher. This permits custom tuning of push strength to any product.

Special Collapsible Pusher Paddles
A unique flexible pusher paddle design compresses to permit additional product to be loaded, fully utilizing the full depth of the unit.

Wall Mount: Wire Product Stop

Pegboard, Slatwall, or Crossbar Flat Tray
An inexpensive, wall mount unit that forms a simple ledge or tray without side dividers. Maximum economy. One-piece unit, no assembly required.

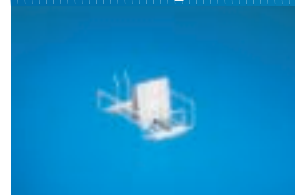

Pegboard, Slatwall, or Crossbar Divider Tray
Moveable sides adjust width of facing, 2" wire front stop and divider. For 1/4" pegboard and slatwall. Crossbar version available. Shipped assembled.

Multiple Interlocked Pegboard/Slatwall/Crossbar
Moveable sides adjust width of facing, 2" wire front stop and divider. For 1/4" pegboard and slatwall. Crossbar version available. Shipped assembled.

Mini System: Wall Mount or Shelf/Table Top

Pegboard, Slatwall, or Crossbar Divider Tray Mini System
Moveable sides adjust width from 3 to 6", 2" high wire front stop and divider, clear plastic front available. For 1/4" pegboard and slatwall. Crossbar available. Shipped assembled.

Table Top Mini System
Moveable sides adjust width of facing from 3 to 6", 2" high wire front stop and divider, clear plastic front available. Freestanding, wire tie, tape or anti-skid pad mounts. Shipped assembled.

Protected by patents or patents pending.

Pegboard, Slatwall and Crossbar Mount available.

Adaptor mounts in a variety of ways.
