

Trion® Security  Anti-Theft Products

Anti-Sweep™ Hook

Budget Priced Theft Deterrence

Trust the hook-makers at Trion to invent creative solutions to prevent mass theft and “sweeping” of merchandise. Anti-Sweep Hooks are the perfect low-cost way to cut theft and boost profits.

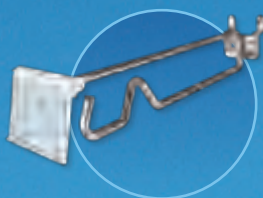

- Grants direct access by customers but deters high-volume shoplifting by allowing only one product to be removed easily at a time.
- Level front staging area allows facing of a product for improved visibility and sales. No need for separate Inventory Control Clips.
- Upturned tip insures positive retention of faced product, while camel-back wire profile creates circuitous product path preventing actual “sweeping” and mass theft.
- Flip Scan® label holder conveniently swings up and out of the way. Employs economical plain-paper labels. Saves up to 65% on labels and up to 75% on labor over expensive adhesive labels.

Proudly Made in the U.S.A.
